MESSAGE FROM THE DIRECTORS

Mr. & Mrs. Lucero

We want to thank all students for the wonderful job they are doing in keeping up with their studies and wanting to further their education. There is nothing more rewarding than taking that first step of graduating from high school. It's once in a lifetime of high school completion. We know that all of you will be graduating from universities, (perhaps several of them) but the first step that got you there was completing high school. Without your dedication, determination and desire, your diploma would not be possible.

Parents, thank you for believing in us in helping your child achieve the biggest goal in school history "earning a high school diploma".

We are very proud of all of our staff and parents for sharing in the responsibility of creating the best possible educational environment for our students. The main reason we are very successful is because of the open

communication with each other on a regular basis as well as understanding the school policies and guidelines under which we operate.

The Hope Connection School will continue with the open door policy. That way any student or parent can be given the assistance that they need at any given time.

This is our last quarter for this school year and we are looking forward to a great end of the school year. Yearbooks, cap & gowns, graduation invitations and final exams are now approaching everyone.

The Hope Connection School is very proud of its **Vision Statement**, which reads: Education is the process by which individuals are prepared to become productive members of a multi-cultural society. It provides individuals with the tools to think critically and act responsible in all aspects of life. Through a cooperative partnership with parents, educators, administrators, community and governments,

this process can be effective and efficient.

Our **Mission Statement** states that the Hope Connection School is committed to providing all students an equal opportunity in a safe learning environment. Hope Connection promises to:

*challenge students to reach their fullest potential

*recognize and respect the various unique cultures within the school and community
